

Kiting

Varanger Peninsula is a peninsula near to Russian border. Varanger Peninsula has Tana Fjord to the west and Varangerfjord to the south. In the north and east is Varanger Peninsula coast to Barents Sea. Varanger Peninsula is characterized by good alpine areas for Snow Kite from November to June. Fjords on the Varanger Peninsula which are open towards the Barents Sea have excellent opportunities for Sea-Kite summer and winter.

Varanger Kite Camp in Austertana is the natural base with access to the mountains and fjords on the Varanger Peninsula. Read more on www.varangerkite.no.

We offer advice on which areas are best for you during your visit.
